PROFILE

Embedded software specialist with **20+ years of experience** in firmware, middleware and application development — bare metal, RTOS and embedded Linux — for safety-critical multi-sector systems: aerospace (Safran, Thales), medical (GE Healthcare), automotive (Valeo), IoT cybersecurity (Enedis) and V2G EV charging (E2-CAD).

RECENT EXPERIENCE

E2-CAD — Eragny, France

May 2025 – Mar. 2026

Embedded Software Engineer — EV Charging / V2G

Reverse engineering, debug and commissioning of EV charging stations (PLC, HomePlug Green PHY, ISO 15118, OCPP). Test bench design, protocol analysis, Python scripting.

Safran — Creteil, France

Mar. 2024 – May 2025

Embedded Software Engineer — Aerospace (SSPC A350)

Development and update of low-level C drivers for the SSPC system. On-target validation testing with Lauterbach TRACE32.

Asterios Technologies — Massy, France

Aug. 2023 – Feb. 2024

Embedded Software Engineer — Aerospace SOM Testing

Validation test development for SOM module (T1042 processor). Processor errata analysis and test documentation.

Thales — Gennevilliers, France

May 2022 – Jul. 2023

Embedded Software Engineer — Defense Radio

Application layer development on embedded Linux in C/C++ (LPM + N-MMR projects). HLT testing, network protocol analysis.

Valeo — Creteil, France / Egypt

Mar. – Apr. 2022

Embedded Software Engineer — Test Audit

Automotive test process audit (NI Mastre, Vector CANoe). Automation improvement proposals.

EARLIER EXPERIENCE

- **Arkamys** (2021–2022, Levallois-Perret) — Automotive audio, GStreamer plugins, CAN drivers
- **Thales** (2020–2021, Velizy) — Autonomous train ATO, 64-bit embedded Linux migration
- **PK Vitality** (2020, Paris) — Medical CGM device, BLE NRF52840, FreeRTOS
- **Zodiac/Safran** (2017–2020, Montreuil / Vancouver, Canada) — SSPC A350, DO-178, flight testing
- **Enedis** (2015–2016, Nanterre) — Smart Grid cybersecurity, Linky concentrator audit
- **Sorin** (2014–2015, Clamart) — BLE Pacemaker, IEC 62304
- **GE Healthcare** (2012–2014, Buc / USA) — Medical imaging, CANOpen, VxWorks
- **Cartadis** (2001–2009, Fontenay) — 8 years, payment terminals, USB/TCP/IP, encryption

EDUCATION

AFPA, Champs-sur-Marne — Electronic & Computer Systems Design Engineer

University of Boumerdes, Algeria — Electronics Engineering, Communication & Telecommunications

INTERNATIONAL REACH

France (home base) • **USA** (GE Healthcare) • **Canada** (Zodiac/Safran, Vancouver) • **Egypt** (Valeo, audit)
